### PROFILE .

I started in 2000, as a trainee in the grip department, what should be only a summer job, but i quickly acquired several skills, and together with the encouragement of the key grip, I was betting on my training and education in the cinema area. So in 2006 and already as a grip member, I started the studying at Lusofona University. In 2008 I did my first job as key grip, the movie Amalia. The rest happened naturally, I made some movies, and lots of commercials. I really like what I do, because every day comes a new challenge, and I know that I am up to any challenge, I have individual competences and collective skills, because this is undoubtedly teamwork, and the key grip must know how to delegate and to be able to surround himself with the best technicians in the market, fortunately I have an excellent team, I recognise their professional competence, and their enormous spirit of sacrifice.
